MESSAGE FROM MR PEMBLETON

Dear Parents/Carers,

As the weather has turned colder this week and we enter the season when illnesses are more common, we want to take a moment to emphasise the importance of regular school attendance, as this week we have had the lowest attendance all year.

We understand that this time of year can be challenging, with the drop in temperature and an increase in coughs and colds. However, maintaining consistent attendance is crucial for your child's learning, social development, and routine. Often, children feel better once they are in school and engaged in the day's activities.

If your child is feeling under the weather but doesn't have a fever or symptoms requiring rest, you might consider giving them medication such as Calpol before school. If they do become unwell during the day, rest assured that we will contact you promptly to discuss the best course of action.

Regular attendance not only helps your child stay on track academically but also fosters resilience and strengthens their sense of belonging within the school community.

Thank you for your support in ensuring that your child attends school whenever possible. Together, we can help them make the most of their education during these colder months.
